Re: BUTLER COUNTY
SOLID WASTE

Mrs. Elsa Skinner
8750 Cincinnati-Dayton Road
West Chester, Ohio 45069

Dear Mrs. Skinner:

On November 16, 1987, Mr. Allen Blevens, and Ms. Patricia Burg, with the Butler County Health Department and I reinspected your demolition disposal landfill at 8750 Cincinnati-Dayton Road. It was our finding that steps had been taken to prevent the use of the site for the disposal of solid waste as defined by Section 3734.01(E) of the Ohio Revised Code:

1. A sign had been posted at the entrance limiting disposal to demolition material only.
2. Workers had been hired to check for illegal solid waste within loads.
3. No "new" solid waste had been dumped on the site since our November 9, 1987 inspection.

Most of the older solid waste items had been graded, however, the large pile of used tires and other miscellaneous scrap tires strewn over the property should be buried so as to help prevent disease-carrying mosquitoes and eliminate a fire hazard.

Your further cooperation in the conduct of this fill will contribute to the lawful management of solid waste in the State of Ohio.

We will recheck the site again the week of December 7, 1987 to determine that the tires are properly buried and that no further dumping of tires and other solid waste is occurring.

If you have questions, please call me.

Sincerely yours,

M. Joe Moore
